

Task 1

```
① let element = document.createElement ("li");
element .innerHTML = "<a> Projects</a>";
let parent = document.querySelector ("header nav ul");
parent.append (child (element));

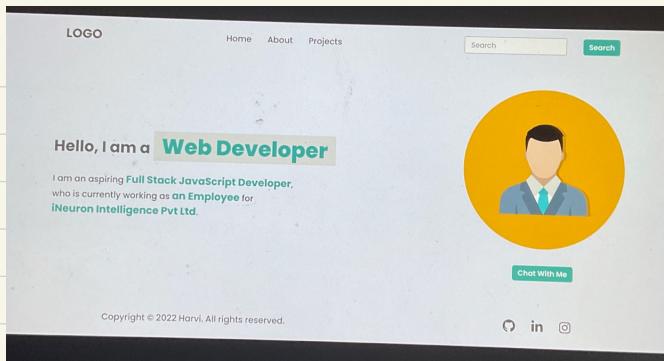

let element2 = document.createElement ("li");
element2 .innerHTML = "<a> Hire me </a>";
let parent2 = document.querySelector ("header nav ul");
parent2.append (child (element));
```

Task 2

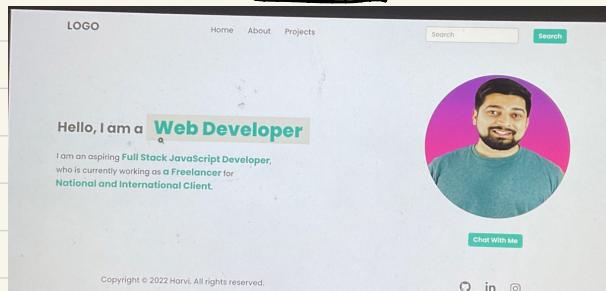

```
let deleteContact = document.querySelector ("header nav
ul>li:nth-child(3)");
let remove - deleteContact.remove();
```

Task 3

③ let element = document.querySelector All ('.hero-left-section p span');
element [1]. innerText = "An Employee";
element [2]. innerText = "iNeuron Intelligence Pvt Ltd";

Task 4

④ let element = document.querySelector (" .hero-right-section img ");
element. SetAttribute ("src", "image of latest su");

Task 5

LOGO

Hello, I am a **Web Developer**

I am an aspiring **Full Stack JavaScript Developer**,
who is currently working as a **Freelancer** for
National and International Client.

Chat With Me Support Me

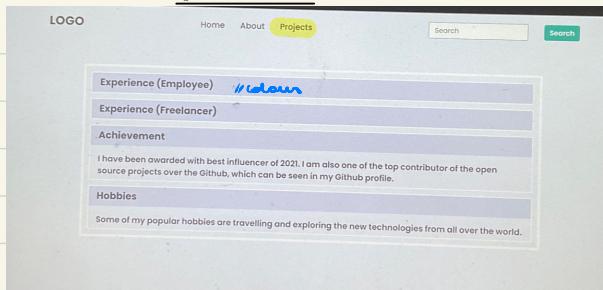

Copyright © 2022 Harvi. All rights reserved.

in

```
let element = document.createElement("button");
element.innerText = "Support Me";
let parent = document.querySelector(".hero-right-section-btn");
parent.appendChild(element);
```

Assignment 2

Task 1

```
let element = document.querySelector("header nav ul>li:nth-child(3)");
```

```
element.remove();
```

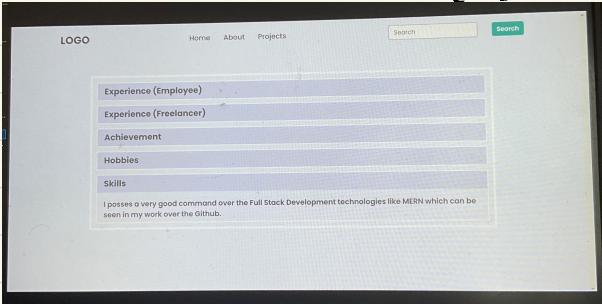

```
let newElement = document.createElement("li");
newElement.innerHTML = "<a>Projects</a>";
```

```
let parent = document.querySelector("header nav ul");
parent.appendChild(newElement);
```

gives an error

```
let elements = document.querySelectorAll(".accordion h3");
elements.forEach((under) => {
    under.style.backgroundColor = "violet";
});
```

Task 2

if only the h3 of freelancer

```
let second = document.getElementById("accordion")[1];
```

```
let h3 = second.getElementsByTagName("h3")[0];
```

```
h3.style.backgroundColor = "violet";
```

```
let element = document.querySelectorAll(".accordion p");
element[3].innerHTML = "...";
```

Assignment 3

Task 1

The screenshot shows a web interface with a header containing a logo, 'Home', 'About', 'Contact', a search bar, and a green 'Search' button. Below the header are two main sections: 'User Output Board' and 'User Input Board'. The 'User Output Board' section contains three input fields with placeholder text: 'FSJS 2.0', 'fsjs@ineuron.ai', and 'Hello World'. It includes a green 'Reset' button at the bottom. The 'User Input Board' section also has three input fields with the same placeholder text. It includes a green 'Submit' button at the bottom.

```
-const element1 = document.querySelector(".enterName");
element1.placeholder = "FSJS 2.0";
-const element2 = document.querySelector(".enterMail");
element2.placeholder = "fsjs@ineuron.ai";
-const element3 = document.querySelector(".enterMessage");
element3.placeholder = "Hello World";
-const element4 = document.querySelector(".user Name");
element4.placeholder = "FSJS 2.0";
-const element5 = document.querySelector(".user Mail");
element5.placeholder = "fsjs@ineuron.ai";
-const element6 = document.querySelector(".user Message");
element6.placeholder = "Hello World";
```

Assignment 4

Task 1

```
-let element = document.querySelectorAll('.clash-card.archer').  
div);
```

```
element[2].innerText = "The Archer";
```

```
let element2 = document.querySelectorAll('.clash-card.goblin').  
div);
```

```
element2[2].innerText = "The Goblin";
```

```
let element3 = document.querySelector('.clash-card-unit-stats.  
clash-card-unit-stats-barbarian.deaf').  
style.backgroundColor = "Orange";
```

```
let element4 = document.querySelector('.clash-card-unit-stats.  
clash-card-unit-stats-grant.deaf').  
style.backgroundColor = "Orange";
```

```
let element5 = document.querySelector('.clash-card-unit-stats.  
clash-card-unit-stats-archer.deaf').  
style.backgroundColor = "Pink";
```

```
let element6 = document.querySelector('.clash-card-unit-stats.  
clash-card-unit-stats-goblin.deaf').  
style.backgroundColor = "Green";
```

```
let element7 = document.querySelector('.clash-card-unit-stats.  
clash-card-unit-stats-wizard.deaf').  
style.backgroundColor = "Blue";
```

```
let element8 = document.querySelectorAll('.clash-card-unit-stats');  
let element9 = document.querySelectorAll('.one-third.no-border');
```

```
for (let i=0; i < element8.length; i++) {
```

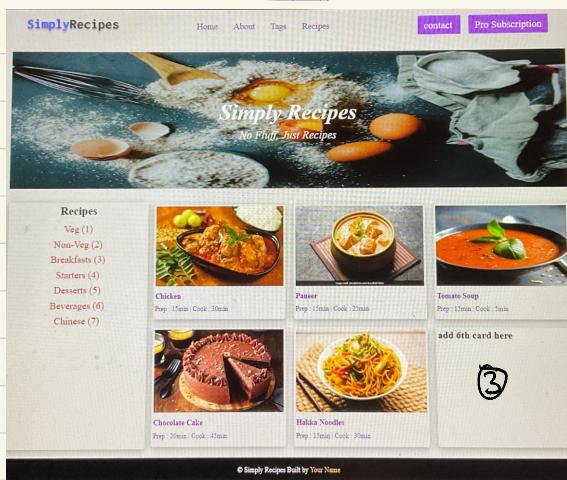

```
    element8[i].style.color = "white";
```

```
    element9[i].style.color = "white";
```

}

Assignment 5

Task 1

```
-let a = document.createElement("button");
a.innerText = "Pro Subscription";
let parent = document.querySelectorAll(".nav-center div"),
parent[2].appendChild(a);
```

```
let styles = {
background-color: "blueviolet",
padding: "10px 15px",
color: "white",
borderRadius: "3px",
margin: "10px",
fontSize: "25px",
textDecoration: "none",
}
```

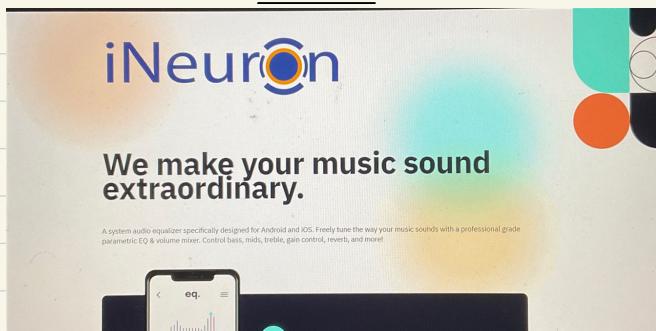

```
Object.assign(a.style, styles);
```

```
-let b = document.querySelector("tags-container div");
let element = document.createElement("a");
element.innerText = "(Chinese (7))";
b.appendChild(element);
```

```
-let parent = document.querySelector(".recipe-gallery");
let element = document.createElement("div");
element.className = "card";
element.innerHTML = "<p> add 6th Card here </p>";
parent.appendChild(element);
```

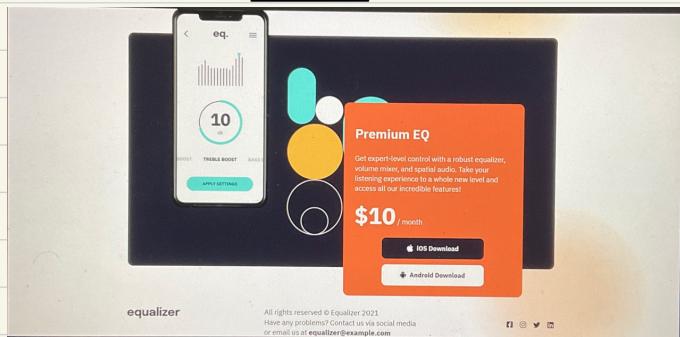

Assignment 6

Task 1

```
let element = document.querySelector(".logo");
element.setAttribute("src", "./assets/ineuron-logo.png");
```

Task 2

```
- let element = document.querySelector(".app-price span");
  element.innerText = "$10";
- let div = document.createElement("div");
  div.className = "footer-social-ico";
  let parent = document.querySelector(".footer-social");
  parent.appendChild(div);
  let i = document.createElement("i");
  i.className = "fa-brands fa-linkedin";
  div.appendChild(i);
```

Assignment 7

Task 1

Assignment - 1: Remove the languages that have 2.0 in their name (Every alternative language)

Courses offered: JavaScript React Node HTML & CSS MERN

```
let list = document.querySelectorAll(".main-languages a");
for (let i = 0; i < list.length; i++) {
    list[2 * i + 1].remove();
}
3
```

Task 2

Assignment - 2: Use JavaScript to write something in the input box and submit the form. This should refresh the page and the languages in the left card should come back.

Enter some text using JavaScript

Submit

onclick (refresh)
refresh ()
input. innerText = "

3

```
let input = document.querySelector(".main-form input");
element.removeAttribute("disabled");
let btn = document.querySelector(".main-form-btn");
element2.removeAttribute("disabled");
let remove = function () {
    for (let i = 0; i < list.length; i++) {
        list[2 * i + 1].remove();
    }
    remove();
    let refresh = function () {
        input.value = "";
        delete remove;
    }
    btn.onclick = refresh();
}
```

btn.onclick = refresh();

Assignment 8

Task 1

The Bright Future of Web 3.0?

We dive into the next evolution of the web that claims to put the power of the platforms back into the hands of the people. But is it really fulfilling its promise?

[READ MORE](#)

New

Hydrogen VS Electric Cars

Will hydrogen-fueled cars ever catch up to EVs?

The Downsides of AI Artistry

What are the possible adverse effects of on-demand AI image generation?

Is VC Funding Drying Up?

Private funding by VC firms is down 50% YOY. We take a look at what that means.

This is my custom heading

```
let h2 = document.createElement("h2");
let parent = document.querySelector(".col-4-new");
h2.innerText = "Custom Heading";
parent.appendChild(h2);
var section = document.querySelector(".col-4-new");
section.style.overflowY = "scroll";
```

Task 2

The Bright Future of Web 3.0?

We dive into the next evolution of the web that claims to put the power of the platforms back into the hands of the people. But is it really fulfilling its promise?
